# 1. Summary

## Q1 2022

With the new year comes new challenges and missions. Not only for the ITTF Foundation but also for the world around us.

The Russo-Ukraine war has changed the life of many. While not everyone is directly affected by the warfare, the course of history has taken a turn and we all suffer from the aftermath of this conflict one way or the other. Responding to the current affair, the ITTF Foundation has expanded the support of the #TableTennisUnited Fund to cover the table tennis community affected by crises, promoting solidarity and unity through our favourite sport.

Meanwhile, the 2022 World Table Tennis Day has become more important than ever. In line with the 50th anniversary of Ping Pong Diplomacy, the 2022 World Table Tennis Day focuses on using table tennis to build friendship and make peace. Whether on the states or grassroots level, our sport has a proven record of breaking the ice and fostering peaceful dialogues between conflicted parties.

### Programmes

Amazing news has come from Slum Ping Pong, one of our **Dream Building Fund** projects. Three project participants have received table tennis scholarships to continue their education in Uganda. We are excited for the three champs, as well as the project being a great example of using table tennis to transform lives of the disadvantaged children in slums.

Upon the outbreak of the Russo-Ukraine war, we have activated the Emergency Relief Fund to provide support to the Ukrainian table tennis community affected by the war. The ITTF Group has since then been monitoring the situation closely to make sure no one is left behind.

Within **TT4ALL**, the eighth World Table Tennis Day was fast approaching. As we dedicated this edition to the 50th anniversary of Ping Pong Diplomacy, 25 promoters have been selected worldwide to help us promote the power of table tennis in peace-making. We have also published the World Table Tennis Day toolkit and the Ping Pong Diplomacy toolkit to assist our Promoters and event organisers to plan their celebration events.

This March on International Women's Day, the ITTF Foundation has taken a look at the current gender equity and FEMpowerment landscape, while building a roadmap to achieve better gender equity for the ITTF Group and its Member Associations, taking one more step towards FEMpowerment and gender equity.

As part of the **TT4Health** programme, the #TableTennisUnited Fund has supported 109 initiatives and individuals worldwide during Covid-19 since its launch in June 2020. The fundraising campaign will continue to be the backbone of the table tennis community, as we have expanded its support to those affected by crises, namely the Russo-Ukraine war.

Galia Dvorak, the four-time Olympian has become the ITTF Foundation Goodwill Ambassador. In her role, she will support the activities of the ITTF Foundation and facilitate communications with the Ukrainian table tennis community. Together, we have sponsored four Ukrainian players to compete in the WTT Star Contender Doha 2022, as well as the Para table tennis players who fled from Ukraine and are currently taking refuge in a table tennis training centre in Prievidza, Slovakia.

As we celebrate the biennial of **Ping Pong Diplomacy**, in 2021 and 2022, it will be the theme for the 2022 World Table Tennis Day. There will be hundreds of celebration events around the world, all aim to use table tennis for peace-making.

# Q2 2022

Peace has been the theme of the second quarter.

The war between Ukraine and Russia continues. With hundreds of thousands of lives being lost and more displaced, the hope for the return of peace is only getting stronger by the minute. It is in times like this that we remember the power of unity, the importance of resilience and solidarity.

We are not powerless in the face of chaos and uncertainties.

## Programmes

As part of the **TT4Health** programme, the #TableTennisUnited Fund has expanded its support to those affected by crises, namely the Ukrainian table tennis community during the Russo-Ukraine war. #TableTennisUnited has since then been used to sponsor four Ukrainian players to compete in the WTT Star Contender Doha 2022, seven Ukrainian players in the WTT Youth Series in Linz, Austria, as well as the Para table tennis team to play in the ITTF Slovenia Para Open 2022.

Within **TT4ALL**, the 2022 World Table Tennis Day took place on April 6 with 314 physical events worldwide and a 24-hour online stream. In line with the biennial celebration of the 50th anniversary of Ping Pong Diplomacy, it has become the centrepiece of the celebration this year. A big thank you to our 25 Promoters and hundreds of event organisers for helping us bring #PeaceOnTheTable through our favourite sport, showcasing the unlimited possibilities to promote peace through table tennis on the grassroots level.

During the TAFISA World Congress in June, the ITTF Foundation signed the Pledge to contribute to the objectives of key European and International policy papers. Together with other 17 international sport organisations, the signatories strive to create opportunities and easy, safe, and inclusive access to participation in Sport for All, including health-enhancing physical activities and physical education at all levels.

Four out of the six **Dream Building Fund** powered by GSD projects have started this quarter, with two going through minor delays. We are excited to be working with all project leaders and local organisations in using table tennis to bring positive social impact to the communities.

Three project participants have received table tennis scholarships to continue their education in Uganda. We are excited for the three champs, as well as the project being a great example of using table tennis to transform the lives of the disadvantaged children in slums.

As we are in the second half of the biennial celebration of **Ping Pong Diplomacy**, Chengdu 2022 World Championships Finals will be the grand finale of the theme as we wrap up the 50th anniversary of Ping Pong Diplomacy. This does not mean turning the page and moving on to other initiatives, but bearing the spirit of Ping Pong Diplomacy at heart, and creating a new history that celebrates the peace-making power of table tennis.

## New partnerships

We will be working with Oaks Consultancy on the development and implementation of our fund generation strategy. The partnership involves a three-stage process, beginning with a review of the investment readiness of the ITTF Foundation, before moving on to the development of an income generation strategy incorporating new and diverse funding streams, and finally the implementation of our new plan.

German Development Cooperation (BMZ/GIZ) and ITTF Foundation joined forces to further strengthen cooperation in table tennis for development. The partnership aims to promote social inclusion, cohesion, gender equity, and other areas of development at the grassroots level aligned to the UN Sustainable Development Goals (SDGs) in particular in the Western Balkans, Iran and Uganda.

## Programmes Overview

**TT**  
DREAM  
BUILDING

**Dream Building projects are inclusive, sustainable and meaningful initiatives using table tennis as a tool for development and peace**

## Dream Building with Refugees

The ITTF Foundation supports and implements projects to support the socio-economic development and social integration of refugee and migrant populations to provide relief, create safe spaces, develop a sense of identity, provide vocational skills and present role models to help promote resilience, social interactions, and health and wellbeing. In Q1 and Q2, table tennis activities with refugees were concentrated in Jordan, within the Zaatari refugee camp and the Azraq refugee camp.

### Activities in Zaatari

The ITTF Foundation in collaboration with Peace and Sport organised a coach training workshop and Table Tennis open day in the Zaatari refugee camp. Three coaches in the refugee camp were provided additional training by Md. Atoum, an ITTF Level 3 coach, focusing on session planning, and technical aspects of table tennis coaching for refugees. Following the training and capacity building sessions, an open day was also organised at the refugee

camp, which was graced by HRH Princess Zeina Rashid of Jordan, a Governing Board Member of the ITTF Foundation. A total of 47 children participated in the sessions.

### Activities in Azraq

In Azraq, regular table tennis sessions have benefited a total of 12 children in 2022, with 7 girls and 5 boys. Of the participants, 6 are children with disabilities. The main objective of the training sessions is to improve the motor skills and teach the children how to play table tennis. This year, the focus has been to reach the maximum number of kids in the camp and to involve them in the planning of the table tennis activities.

The coach in the camp is intent on ensuring that table tennis can be introduced as an activity for all ages, abilities and gender. Besides a focus on technical aspects of table tennis, the sessions seek to enhance social skills, self-efficacy and decision making. The training also focuses on diverting the children away from harmful habits and choices, and to help the children overcome the trauma of war in Syria.

"The training has spread the culture of sport across the entire camp, and table tennis has become one of the best sports in the camp. It has improved the ability of the children to work in groups, and to support each other through improved communication. The training has helped the integration of children with disabilities and has encouraged them to be active." – Coach Yousef Abo Yaman

## Sport and Mental health: SPiRIT Project

### Overview

The ITTF Foundation is a Partner of the Sport and Psycho-Social Initiative for Inclusive Training (SPiRIT), coordinated by the European Non-Government Sports Organisation (ENGSO) and supported by partner organisations across the European Union.

The project's main aim is to make sports clubs more accessible and welcoming to everyone, including refugees, by developing a framework for humane, inclusive and empowering coaching that nurtures good mental health and well-being.

The objectives of the SPiRIT project are to:

1. Collect, compile and disseminate relevant research reviews and practical best practice examples in the field of sport and mental health.
2. Develop and promote key recommendations for educating coaches that advance the mental wellbeing of the participants of their sport. These recommendations for coaches' education will be based on the research review and mapping study on best practices.
3. Create and implement a coaching framework that presents the academic case (based on research review) for sports and mental health in an accessible manner and utilises best practice examples to guide the learner through an educational path.
4. Produce and disseminate an accessible online learning tool, facilitating the skills development of coaches flexibly. This online educational content will be publicly available and free.

The main activities for the delivery of the SPiRIT Project include Transnational Partner Meetings, Intellectual Outputs and Multiplier Sport Events. The project's objectives are achieved by creating and disseminating the Intellectual Outputs. However, the successful delivery of the project's objectives also relies on effective project management, collaboration and communication

### Background

Mental illnesses are some of the most prominent health problems today, directly affecting up to 25% of the world's population. People that have endured trauma, such as refugees, are even more likely to experience mental health issues.

Sports and physical activity have been demonstrated to affect mental health positively, and many researchers suggest that sports – especially organised sports – can provide a valuable setting for preventing and addressing mental health problems. To unlock this potential, the SPiRIT project aims at developing a framework for humane, inclusive and empowering coaching that nurtures good mental health.

### ITTF Foundation Activities and Contribution

The ITTF Foundation was tasked with developing a Coaching Framework for Mental Health and Well-being – a comprehensive handbook with guidance, pedagogical materials and open educational resources for humane and inclusive coaching.

Based on the collection and analysis of evidence-based research and best practice, a set of recommendations have been developed to push for change top-down, targeting stakeholders responsible for coaching education at the highest level. To directly transform sport at the grassroots level, the ITTF Foundation has developed a handbook for inclusive coaching. For maximum impact, the partners have also developed an online learning tool, integrating lessons and learnings from this handbook, to help build capacity for the coaches to provide innovative and easy-access training for coaches.

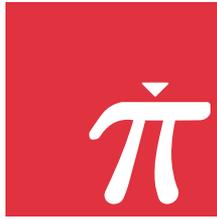

In the course of the SPiRIT project, 13 national and international events have been organised in Germany, Finland, Greece, Spain, Belgium and Bulgaria, targeting groups such as coaches, sports clubs, national sports confederations and National Olympic Committees, sports federations, universities, mental health organisations, refugee organisations, and decision-makers at different levels.

**The ITTF Foundation organised a Multiplier Event in Leipzig**, attended by representatives from 10 countries, who were sensitised on the handbook as well as the online course, as part of a comprehensive workshop on mental health and wellbeing in and through sport.

LEGACY**

**Raising awareness,  
providing solutions and  
motivating engagement of  
the table tennis community  
within sustainability.**

# TT Legacy

We play an active part in the ITTF Sustainability Working Group, which is currently planning its strategy.

## Vision:

Sustainability means to ensure Table Tennis. For all. For life. **Forever.**

## Mission:

At the heart of the ITTF Group's vision is to make Table Tennis accessible to all, for life and future generations. To achieve this, the sport must consider its impact on:

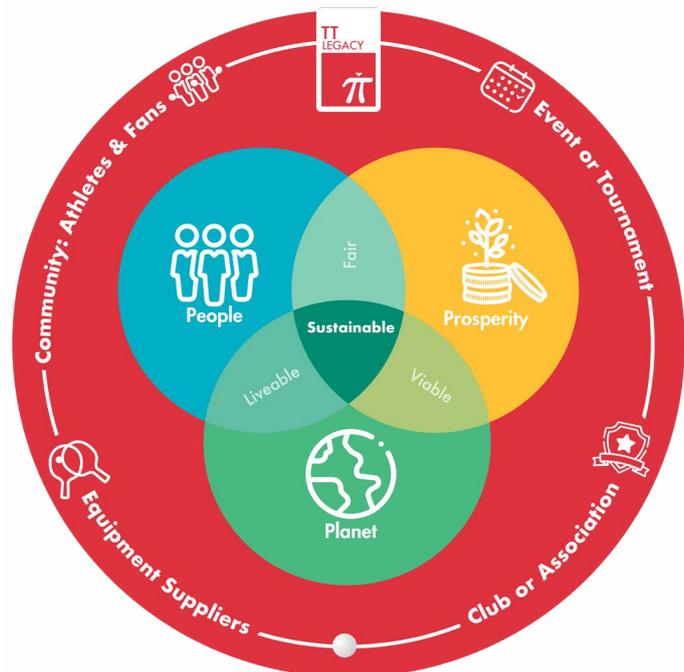

### People, Planet and Prosperity.

- **People:** Table Tennis can only serve people if we closely monitor and manage our activities' impacts on individuals and communities at large. We must ensure that our sport causes no harm and is continually used as a tool for positive societal change and a force towards reaching the United Nations Sustainable Development Goals.

- **Planet:** Table Tennis has a collective responsibility to protect the environment in which it is played and the finite resources it uses. The sport will work hand in hand with its stakeholders to reduce its carbon footprint and drive innovative solutions. In addition, raising awareness aiming at consumption and behaviour changes will be developed to ensure a wider reach and brighter future for all.

- **Prosperity:** Table Tennis, to survive, must support its long-term economic growth without negatively impacting people and the planet. We can achieve this by working on our cash flow, resource distribution and support for social businesses and technologies. We must increase our commitments to generate value beyond financial profitability for our athletes and fans.

## TT@WORK

The pandemic is keeping us economically on edge. The world is upheaval, forcing us to face unprecedented global challenges with new concepts. To form and establish closer, long-term relationships with companies outside the existing global table tennis family, the ITTF Foundation have developed a new concept to fill companies with enthusiasm for table tennis, our table tennis family, and our cause.

We care about table tennis. For All. For Life. We believe table tennis is popular, universal, and inclusive. And therefore, we want to bring table tennis directly into companies' offices and factories.

In recent years, there has been increasing discussion about corporate culture —and with good reason. It is important! Corporate culture describes the working environment and working atmosphere of an organisation. It determines the values, attitudes, activities, social behaviour and beliefs of the company and its employees. Corporate culture can provide a healthy balance between work and creativity. Or it can mean a very tight framework of a 9to5 job with little room for inspiration and appreciation. The competition among companies for good employees is getting increasingly fierce, and ignoring corporate culture comes at a cost in the long run.

By establishing a table tennis oasis directly in the office or factory of our partner, we support companies in developing a modern, open-minded, interactive, and integrative corporate culture. At the same time, we create a playful way of stress reduction and relaxation for the employees, many of which may even associate this with positive childhood memories.

The advantages, both for employers and employees, are obvious. Above all, health and well-being, team building, inclusiveness, interaction, concentration, creativity, and morale are among the important factors here. In other words: healthy, motivated employees who feel valued by their team and comfortable in their company's office. A win-win situation for everyone! This could also mean the start of enduring and deep relationships with new partners for us.

After having successfully placed table tennis in companies, the second step is to organise table tennis business networking events. This aims to bring companies together to enjoy our sport in a relaxed and great atmosphere – at first locally, then regionally, nationally and finally internationally: Playful networking at the table.

Project	TT@WORK
Related programme	TT4Health
Location(s)	Pilot project first in Leipzig, Germany – followed by a nationwide launch; after introduction in Germany, gradual market expansion into other European countries, other continents, and finally a global approach
Status	Project launch to be determined due to the pandemic.
Project description	<p>We bring table tennis into the office or factory of our partner</p> <ul style="list-style-type: none"> <li>• Delivery and setup of table tennis equipment at the office</li> <li>• Delivery of a starter kit</li> <li>• Provision of TT@WORK table tennis software</li> </ul>
Aim	Development and establishment of deep long-term relationships with potential new partners of the foundation, with the aim to cooperate later also in the field of our CSR programs and projects
Target group	Non-table tennis related companies and bluechip companies as well as medium-sized companies and start-ups
Business model	<p>Annual ITTF Foundation membership fee for the provision &amp; use of table tennis equipment and TT@WORK software</p> <p>Optional support will be offered menu-based</p>

**WORLD TABLE TENNIS DAY**

**Peace on the Table**

Are there tensions between diverse groups in your community? Are there constant frictions between neighbours in your building?

World Table Tennis Day (WTTD) is celebrated annually on April 6 since 2015, also marking the International Day of Sport for Development and Peace. It is the day we celebrate table tennis, as well as the universality and social inclusiveness the sport represents.

In line with the biennial celebration of the 50<sup>th</sup> anniversary of Ping Pong Diplomacy, WTTD 2022 focuses on using table tennis for peace-making and conflict resolutions. Sparked by the original event in the Japanese city of Nagoya in 1971, WTTD 2022 seeks to create friendships and build bridges between conflicted parties on both, the state and grassroots level.
